

Disciple Equipping Workshops

Drawing from our long history of strong lay involvement, and adapting to the changing needs of our congregations in this post-Christian environment, we have developed a series of workshops to help support pastors and congregations as they seek to cultivate an engaged and equipped membership. Each of these workshops is designed to strengthen the congregation and its mission to make and equip disciples who make and equip disciples. The total cost to present a complete workshop (3, 50-minute sessions) in a congregation is approximately \$1500-\$2000, depending on the location. Because we want all AFLC congregations to have access to these workshops, we offer them at no cost to the church.
